---

### Professional Summary:

Web Developer with over 8+ years of experience in software development and 5+ years of specialized experience in React. Demonstrated expertise in building high-performance applications . Skilled in leading development efforts on full-stack solutions, collaborating with cross-functional teams, and delivering robust, user-centric applications. Adept at integrating third-party libraries, REST APIs, and employing SOLID principles for clean, maintainable code. Proven track record of innovation, problem-solving, and delivering quality results under tight deadlines in diverse, geographically dispersed teams.

---

### Technical Skills:

- **Development:** React, JavaScript, ES6, Typescript, Redux, Jest, Enzyme
- **Development Tools:** Jira, Confluence, Bitbucket, CI/CD tools
- **Testing:** Unit Testing, Integration Testing, End-to-End Testing
- **Design Principles:** OOP, SOLID, Design Patterns
- **Methodologies:** Scrum, Agile
- **Frontend:** React 17, Redux, NextJS 13, Angular 18, NGXS, RxJS, NGRX, Bootstrap, Tailwind CSS, Web3 SDK, Ethers, Material UI, Jest, Cypress, React Testing Library
- **Backend:** NodeJS, Spring Framework, Hibernate, Kafka, Rest Microservices, JUnit, Strapi CMS, Sanity CMS
- **Databases:** Postgres, Oracle SQL, MySQL, MongoDB

---

## **Professional Experience:**

### **Senior Mobile Developer**

*Digital Identity Section (DDI)*

2023

- Developed high-quality React Native mobile applications as part of a multidisciplinary team.
- Led mobile development efforts, contributing to solution design and implementation.
- Collaborated closely with UX/UI designers, project managers, and fellow developers.
- Ensured applications underwent rigorous testing for usability, robustness, and reliability.
- Documented project plans and technical specifications.

### **Lead Web Developer**

*Gigster*

2022

- Spearheaded the development of several high-performance applications Integrated third-party libraries and REST APIs seamlessly.
- Maintained up-to-date knowledge of mobile app development best practices.
- Provided technical training and mentorship to junior developers.
- Delivered projects within tight deadlines while ensuring high-quality standards.

### **Mobile Developer**

*Intrasoft*

2021

- Contributed to the development and maintenance of mobile applications.
- Collaborated with a diverse team to innovate app functionality and design.
- Documented technical specifications and user guides.
- Ensured compliance with coding standards and best practices.

### **Senior Frontend Developer**

*Freeway - Freelance, Remote, EU*

Oct 2022 – Oct 2023

- Worked on the Freeway Staking/Rewards platform.
- Technologies: React/NextJs, Typescript, TailwindCSS, Blockchain, Web3, NodeJs

### **Senior Frontend Developer**

*Forj Network - Freelance, Remote, EU*

Dec 2022 – Sep 2023

- Developed features to enhance user experience.

- Technologies: React/NextJs, Typescript, TailwindCSS

### **Senior Fullstack Developer**

*RabbitX - Freelance, Remote, EU*

*Sep 2023 – Dec 2023*

- Worked on RabbitX perpetuals trading decentralized exchange.
- Technologies: React/NextJs, Typescript, Styled Components

### **Senior Frontend Developer**

*Gigster - Freelance, Remote, US*

*Jan 2022 – Jan 2023*

- Worked on various projects.
- Technologies: React/NextJs, Typescript, GraphQL, TailwindCSS

### **Senior Frontend Developer**

*RBI International - Freelance, Vienna, Austria*

*Sep 2020 – Oct 2022*

- Built responsive web applications in a micro-frontend architecture.
- Technologies: Angular 12, React/NextJs, Typescript, NGXS, RxJS, Material UI, AWS

### **Web Developer**

*TDC Group - Freelance, Copenhagen, Denmark*

*Mar 2020 – Sep 2020*

- Built the Danish version of Netflix.
- Technologies: React/NextJs, Redux, GraphQL, Gatsby, RxJS, Typescript, BDD, AWS

### **Full Stack Developer**

*Ministry of Defence - Freelance, Athens, Greece*

*Dec 2017 – Aug 2018*

- Built an online reservation platform for all military hospitals.
- Built a hospital management system (HMS).
- Technologies: Typescript, React, Redux, Ant Design

---

### **Further Education:**

- **MS. C Information Systems**  
*Hellenic Open University, Greece, 2024*
- **Department of Informatics School of Sciences**  
*University of Western Macedonia, Greece, 2015*
- **Agile With Atlassian Jira**  
*Coursera, Greece, 2021*
- **AWS Certified Developer - Associate**  
*AWS - Amazon, Greece, 2022*

---

**Languages:**

- **Greek:** Mother tongue
  - **English:** Fluent
- 

**Soft Skills:**

- Strong customer-facing and oral communication skills
  - Excellent technical documentation and report writing abilities
  - Creative problem-solving and innovative solution-finding
  - High level of initiative and ability to work independently
  - Conflict management and cooperative teamwork
  - Adaptable and eager to learn on the job
- 

**Professional Attributes:**

- High degree of personal integrity and professionalism
  - Proven ability to handle confidential matters with appropriate judgement
  - Strong analytical skills and a good problem-solving attitude
  - Experience in larger software development projects
  - Ability to multi-task, prioritize tasks, and meet short deadlines
-
